STATEMENT OF WORK (SOW) — DRAFT (FOR DISCUSSION ONLY)

1. Document Information

Project Name	Real Estate Management Portal
Client	
Prepared By	Aradhna Singh
Date	01-08-2026

2. Purpose of the Document

The proposed Real Estate Management Portal is a centralized web and mobile-based solution designed to digitize and streamline property buying, selling, renting, and administrative operations.

The solution aims to simplify public property discovery, advanced search filtering, user dashboards, lead management, agent performance tracking, client interactions, booking/transaction workflows, and administrative monitoring through a secure and user-friendly platform for both the platform owner, agents, and customers.

This document represents the current understanding gathered during discussions with the client and may be further refined during detailed requirement gathering and solution design sessions.

3. Project Objectives

The proposed solution aims to:

- Digitize real estate operations and property lifecycle management end-to-end.
- Enable advanced public property search and dynamic filtering by purpose, location, and property type.

Web: www.iglobexinfotech.com

iGLOBEX INFOTECH PVT.LTD

(Near Mera Maan Guest House, Sultanpur Road, Malik Mau, Raebareli, UP – 229001)

- Provide dedicated dashboards with comprehensive sidebar navigation for Super Admins, Agents, and Customers.
- Streamline lead generation, tracking, and automated CRM pipelines.
- Manage property inventory (Apartments, Office Spaces, Plots, Residential, Villas).

4. Proposed Modules

The system shall be built around primary modules including the Public Page, Owner/Admin Module, Customer Portal, and Agent Panel described in detail below.

MODULE A - PUBLIC PAGE & WEBSITE

4.1 Landing Page & Navigation

- Professional header navigation featuring links to Home, About Us, Properties, Projects, Agents, Blog, and Contact Us.
- Instant Enquiry and User Authentication (Login & Register) triggers.
- Hero section with prominent call-to-actions ("Explore Properties", "Contact Agent").

4.2 Property Search Engine

- Multi-parameter search filter bar allowing users to filter properties by Purpose (All Purpose, Buy, Rent), Location (City or Location), and Property Type (Apartment, Office Space, Plot, Villa, Residential).

MODULE B - OWNER / ADMIN PANEL & SIDEBAR NAVIGATION

4.3 Dashboard & Analytics

The dashboard will provide the administrator a quick overview of platform activities, sales metrics, and growth indicators. Indicative widgets include:

Web: www.iglobexinfotech.com

iGLOBEX INFOTECH PVT.LTD

(Near Mera Maan Guest House, Sultanpur Road, Malik Mau, Raebareli, UP – 229001)

- Sales Overview with annual/monthly trend graphs and comparative growth percentages.
- Lead Conversion Funnel (New Leads, Contacted, Site Visit, Negotiation, Converted).
- Revenue Overview and monthly financial tracking.
- Properties by Type distribution chart (Apartment, Office Space, Plot, Residential, Villa).
- Recent Activities, Today's Enquiries, and Upcoming Site Visits feeds

4.4 Admin Sidebar Menu & Pages

The admin panel features a dedicated left-hand navigation sidebar linking to the following functional modules:

- **Dashboard:** Main control center and analytics overview.
- **Property Management:** Complete catalog and inventory management for adding, updating, and reviewing listings.
- **Lead Management:** Includes submenu pages for *All Leads* and *Site Visit Approvals*.
- **Customer Management:** Centralized database for viewing and managing client profiles.
- **Agent Management:** Oversight of property advisors, performance, and allocations.
- **Booking Management:** Tracking property bookings and reservation statuses.
- **Payment Management:** Monitoring transaction logs and online payment collections.
- **Commission Management:** Tracking agent payouts and distribution structures.
- **Reports & Analytics:** Comprehensive business intelligence and performance reports.
- **Settings**: Global platform configurations and role permissions.

MODULE C - CUSTOMER DASHBOARD & SIDEBAR NAVIGATION

4.5 Customer Profile & Overview

- Personalized welcome banner with quick profile status indicators (e.g., Premium Member).
- Summary metric cards tracking Saved Properties, My Bookings, My Enquiries, Site Visit Requests, Total Payments, and Profile

(Near Mera Maan Guest House, Sultanpur Road, Malik Mau, Raebareli, UP – 229001)

4.6 Customer Sidebar Menu & Pages

The customer portal sidebar organizes user interactions through the following dedicated pages:

- **Dashboard:** Main summary view and activity widgets.
- **Saved Properties:** Management of favorite and bookmarked listings.
- **My Enquiry:** Tracking active property inquiries and responses.
- **Site Visits:** Schedule and history of property viewing tours.
- **My Bookings:** Status logs of reserved properties.
- **Payments:** Secure payment tracking and transaction history (marked with functional status indicators).
- **Documents:** Secure digital repository for agreements and verification paperwork (marked with functional status indicators).
- **Support:** Help center and client assistance requests.
- **Account Settings:** Subpages for *My Profile* and *Change Password*, along with a secure *Logout* option.

MODULE D - AGENT / PROPERTY ADVISOR PANEL & SIDEBAR NAVIGATION

4.7 Agent Dashboard & Performance

- Personalized advisor overview displaying Assigned Properties, New Customers, Site Visits, Monthly Sales, Total Commission, and Pending Commission.
- Lead Status Overview breakdown chart for assigned prospects.
- Monthly Performance graphical timeline tracking individual deal closures and agent milestones.

4.8 Agent Sidebar Menu & Pages

The agent portal sidebar provides real-time operational tools via the following pages:

Email: info@iglobexinfotech.com
Web: www.iglobexinfotech.com

iGLOBEX INFOTECH PVT.LTD

(Near Mera Maan Guest House, Sultanpur Road, Malik Mau, Raebareli, UP – 229001)

Dashboard: Overview of agent metrics and lead status charts.

My Properties: Catalog of properties assigned to the specific advisor.

Customers: Directory of leads and clients assigned for follow-up.

Site Visits: Scheduling and management of client property tours.

Commission: Ledger tracking earned, paid, and pending commissions.

Tools: Utility links including *Calendar* and *Tasks* (with feature status indicators).

5. User Roles

Role	Responsibility
Super Admin	Complete system administration via sidebar modules, analytics monitoring, property approvals, agent oversight, and global platform configuration.
Agent / Property Advisor	Manage assigned properties, track lead pipelines through sidebar menus, monitor site visits, handle customer inquiries, and track commission earnings.
Customer / Member	Browse public listings, use customer portal sidebar tools to save favorites, submit inquiries, schedule site visits, make digital payments, and access document vaults.

6. Technology Stack & Deployment Model

6.1 Technology Stack

The proposed system will be developed using modern, scalable, and secure technologies to ensure high performance, reliability, and ease of maintenance.

Email: info@iglobexinfotech.com
Web: www.iglobexinfotech.com

iGLOBEX INFOTECH PVT.LTD

(Near Mera Maan Guest House, Sultanpur Road, Malik Mau, Raebareli, UP – 229001)

Layer	Technology
Frontend (Web)	HTML, CSS, JavaScript, Bootstrap / Tailwind CSS
Backend	Python, Django Framework
Database	PostgreSQL
APIs	RESTful APIs
Hosting	Cloud-based Infrastructure

6.2 Deployment Model

- The proposed solution will be offered as a Software-as-a-Service (SaaS) platform.
- Under the SaaS model:
- The application will be hosted and maintained by IGLOBEX INFOTECH PVT. LTD.
- Domain hosting, server infrastructure, application deployment, routine database backups (PostgreSQL), and software updates will be managed by IGLOBEX INFOTECH PVT. LTD.
- The client will be provided secure login credentials to access the application over the internet without the need to manage any on-premise infrastructure.
- Regular feature enhancements, security updates, and performance optimizations will be carried out as part of the hosted solution, subject to agreed support terms.
